FOUND AT THE BEACHFRONT CORAL CABANA, OUR RESIDENT TEAM OF MARINE EDUCATORS ARE HERE TO ANSWER ALL OF YOUR QUESTIONS ABOUT THE FISH AND CORAL OF PETITE ANSE AND TO GUIDE YOU THROUGH THE WATERS OF OUR BEAUTIFUL BAY.

There are various snorkelling options for you to choose from, whether it's a snorkel lesson for a beginner, a leisurely snorkel tour or a scientific survey snorkel for those hoping to contribute to coral reef conservation in Seychelles. All snorkelling excursions are conducted on a private basis in exchange for a small donation which contributes directly to the work of WiseOceans and our marine conservation efforts here at Four Seasons Resort Seychelles.

REEF RESTORATION PROJECT

In 1998 areas of coral in Seychelles were damaged (bleached) and died when the temperature of the sea climbed too high for too long. For the next 18 years the reefs were in recovery while facing ongoing threats, including outbreaks of crown-of-thorns sea stars and lesser bleaching events. Then in 2016 another mass coral bleaching event swept the globe and extreme sea temperatures again caused extensive damage to reefs all over the world. Our precious reef is again working hard to recover. With our conservation partner, WiseOceans, we are giving the reef a helping hand in an effort to restore it to its former health.

The Petite Anse Reef Restoration project aims to restore 10,000 square metres of degraded limestone reef through the transplantation of 16,000 coral fragments - this ongoing work can be seen during a private snorkel with WiseOceans in Petite Anse bay. As part of this initiative, we hope to increase knowledge and awareness of coral reefs and the threats they face.

Ask the WiseOceans team for more information about coral reefs, the project and how you can be involved in making a difference today!

NEED TO KNOW INFORMATION

FOR YOUR SAFETY

The ocean is a beautiful and diverse creature, but it should not be underestimated. To ensure you enjoy it to its fullest potential, please respect the safety guidelines.

Before entering the ocean, take time to observe the marine flags on the beach – the colour of the flag indicates the conditions of the water that day, to inform you of how strong the currents might be, or of any hazardous conditions. If in doubt, ask a member of our Recreation Team who will be happy to assist you.

For your safety, do not enter the water immediately after consumption of alcohol or if you are tired or unwell.

SUN EXPOSURE

Due to the equatorial position of the Seychelles, the island enjoys long hours of tropical sunshine, with the sun being at its strongest between 10am and 4pm. It is important to protect your skin from the strength of the sun's rays and it is advisable to wear sun screen, even during cloudy weather. Please note that children's skin is more sensitive to the sun's rays. Ensure children have time out of the sun and that protective clothing, accessories and sun screen are used.

Remember to keep hydrated by drinking plenty of water throughout the day.

SAFETY DEPOSIT BOX

For your own peace of mind, we strongly recommend that you place your money and valuables in the safety deposit box available in your room. Should you have an item of higher value, our Reception team would be happy to store this for you at our Front Desk safety deposit boxes, which are monitored 24 hours a day by staff. Please note that the hotel will only be responsible for the loss of personal items that are stored in the safety deposit boxes at our Reception area.

Here at the Resort, we provide 24 hour roaming security for your safety, as well as access to first aid facilities, with a nurse on staff and access to an on call doctor.

MOBILE APP

Now you can carry your own personal concierge service with you at all times, in the form of the Four Seasons Mobile App.

Check in and out, order in villa dining, request housekeeping services and ensure you have everything at your fingertips by downloading the Four Seasons Mobile App to your mobile device.

Alyssa was born in the Seychelles and was educated in the United Kingdom, studying fine art at Chelsea College of Art and Design. Her studio is located within the Michael Adams Gallery shared by her Father, Michael Adams and brother, Tristan Adams. You can visit their gallery, which is located close to the Resort, between wetlands and a little river, making it the ideal setting for growing the bamboo featured in so many of her paintings.
